Tue, 09 Oct 2018 02:30:00 GMT

*Total runout is a composite tolerance, that is applied to an entire surface, that restrains geometric variation (so this means it controls variation in straightness circularity, coaxiality, tapers ...*

## [Engineering drawing - Wikipedia](#)

Tue, 09 Oct 2018 20:16:00 GMT

*An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.*
